Guidance and Discipline Policy

Here at ZBOP, our philosophy is for each child to be nurtured in a non-threatening environment, which does not include the use of corporal punishment. Staff shall help ensure children develop self-control and assume responsibility for their own actions. Limits and consequences shall be clear and understandable to children, consistently enforced and explained to the child before and as part of any disciplinary action.

Firm positive statements about behaviors or redirection of behaviors shall be our goal. In circumstances where a child may need to be removed from the group to help a child gain control, it shall not exceed one minute per year of age. Removal from the group shall not be used for children less than 24 months of age.

Children shall not be disciplined for toilet accidents. Corporal punishment, including hitting, spanking, swatting, beating, shaking, pinching and other measures intended to induce physical pain or fear, any threatening or actual withdrawal of food, rest or use of the bathroom; abusive or profane language, or public or private humiliation, including threats of physical punishment or any form of emotional abuse, including shaming, rejecting, terrorizing or isolating a child will not be acceptable or tolerable.

Children shall have reasonable opportunity to resolve their own conflicts. Discipline shall be the responsibility of adults who have an ongoing relationship with the child.

Our goal here at ZBOP is to assure the success of each and every child. Therefore should there be an issue to resolve, we will not only contact the parents, but we will work with the parents to develop an intervention plan. The center Director will monitor the implementation by staff and keep all parties apprised of the plan's progress.

In certain circumstances, where ZBOP has been unsuccessful in resolving the child's behavior, we will, as we will throughout this process, request assistance of the child's parents. Any program developed with the assistance of the parent will include Director, Staff and Parents monitoring the progress of this plan of action.

When efforts by ZBOP have been unsuccessful, a clinical behavior management plan may be developed to meet the needs of a particular child, if developed with the parent and a professional clinician. These efforts will be documented in the child's file, along with the appropriate consents. All staff working with the child shall receive training on implementing the plan.
